

Interested in Exchange Studies?

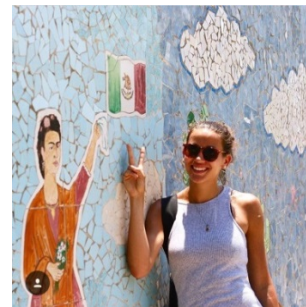

Get the chance to spend one of your semesters at one of KTH's partner universities around the world. Most master programmes offer the opportunity to go abroad for one semester and take equivalent courses to your regular curriculum so that the semester abroad can be incorporated in your KTH degree. You can apply for Erasmus+ grants from KTH and some other sponsoring provided by your school.

We will host KTH Homecoming Evening on **September 20th** for the KTH students who were abroad last year, giving you an opportunity to learn about their experiences and hear their recommendations. We will also introduce the KTH Certificate of Global Competence to you, a special program to make sure you get the most out of your semester abroad.

The event will take place in **KTH Entré** and starts at 6pm, please make sure to sign up by September 13th [here](#).
